Nominations for the Third Annual Water Quality Awards Dinner

Save the Date! The Los Angeles Regional Water Quality Control Board is pleased to announce that we will hold our third annual Water Quality Awards Dinner on Thursday, October 23rd, 2003. This letter is to ask for your nominations for awardees. The awards recognize individuals, groups, and organizations for their significant contributions to the preservation and enhancement of water quality. The Awards Dinner provides an excellent showcase for outstanding work and will, we hope, encourage others to take on the challenge of improving and enhancing water quality in our Region.

This year we are announcing a new award category for Water Quality: Architecture Design. The intent is to recognize the work of individuals or firms that, through the design of a single work or a body of work have significantly contributed to water quality.

Award nomination forms can be found on the Regional Board's website at: http://www.swrcb.ca.gov/rwqcb4/html/wq_awards.html. If you know of a candidate to nominate for a Water Quality Award, please take the time to do so now. You may nominate any individual or firm that you think is deserving of this honor. Nominations for yourself and/or your firm are most welcome. Please note that the final deadline for submissions is August 15, 2003 at 5:00 p.m.

We look forward to receiving your nominations and hope you will be able to join us on Thursday, October 23rd to recognize the fine groups and individuals that have worked with commitment and creativity to help restore and protect the waters of our Region.

Thank you,

Susan Cloke
Chair, LARWQB

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>
